

TALI SHUSHAN - RESUME

My name is **Tali Shushan**. I am a software engineer student at Afeka, collage of engineering.

I am well-versed in the following programming languages and technologies:

Java, C#, C, SQL, MySQL, Assembly, Python, HTML5, CSS, JavaScript, Bootstrap, and Git.

I have a strong passion for programming. I am hard working and dedicated, eager to learn and develop any new technologies.

Looking for my foothold in the world of programming.

- Self-driven, extremely motivated
- Committed and proactive
- Attention to small details

Technical Skills

- Java
- C#
- Python
- SQL
- Assembly
- HTML5
- CSS
- JavaScript
- Bootstrap

Languages

- Hebrew - Native language
- English - High level

Education

- **2010 - 2016** : Highschool,
Computer Science specialization , 10-unit level.
Owns a technological matriculation certificate,
Including 10-unit level in computer science and
5-unit level in chemistry.
- **2020 - 2023** : Software engineer student at Afeka, collage of engineering.
With Specialization in Information Security and Cyber Student.
4 semesters until Graduation.
- **2020 - 2021** : 3 courses on Udemy in the following fields of study:
HTML5, CSS, JavaScript, Bootstrap, Python, Typescript.

Army

2016 - 2018 :

- Flight crew diagnostician in YARPA base (ירפ"א)
- Behavioral science diagnostician in BACHA 21 base (בח"א 21)

Released with the rank of sergeant with excellence

- I led and performed the sorting process for all the commanders and instructors in the base, and in the technical order of the air force.
- I preformed the pilot sorting, that include psychological and practical tests.
- Most of the work involved managing and implementing many tasks under pressure, in a short amount of time.

Work experience

08.2020 - 02.2021 :

Python backend developer, in a group of 3 programmers.

The work included the development of an API for a startup company, called Footballer Ltd.

Later on we've transformed the code to Typescript.
